The Lincoln Alliance program may restrict the number of transfers you may make among designated investment alternatives within the product in a given time period. An investment option may apply a redemption fee or restrict certain transfers. However, transactions associated with market timing – such as frequent, large, or short-term transfers among investment options – can affect the underlying funds and their investments. Lincoln therefore reviews the number of transfers that a participant makes within given periods of time to determine if any transfer attempts to capitalize upon short-term movements in the equity markets (Market Timing Policy). If so, the participant's transfer activity will be subject to further

chart displays the credited rate of return	Chart 2 Fixed return investments Chart 2 focuses on the performance of investment options that have a fixed or stated rate of return. The chart displays the credited rate of return of each such option, the term or length of time that you will earn this rate of return, and other information relevant to performance.						
If the Guaranteed Minimum Interest Rate listed above is higher than the Portfolio rate and/or the New money rate, Lincoln's Guaranteed Minimum Interest Rate will be the actual rate credited to your account.							
Chart 3 Fee and expense information Chart 3 displays fee and expense information (Chart 1 and Chart 2). It indicates the annual operating expenses are expensed and expenses are expensed and expenses are expensed.	formation for e total annua nses that red	al operating duce the ra	expense te of retu	s of the o	ptions in (investmen	Chart 1.
